Re: Continuing Education at Reduced Rates

Dear Mayor,

An important benefit of your municipality being a member of the League is access to the League's professional development and continuing education programs at reduced rates. Not only you, but also all your professional staff have access to these carefully developed programs. Best of all, the League education is available at a fraction of the cost of commercial and other education providers.

Whether you are budgeting for your education or that of your staff, we recommend you first consider the cost effective programs offered by the League and its 21 affiliated associations. Your membership dues make these programs and reduced rates possible, so take advantage of your membership. See League education offering here <http://nj-njslom.civicplus.com/373/Professional-Development-Seminars> and consult the 21 affiliated associations for additional educational offerings.

Here is a list of the 21 League Affiliate Associations. These Organizations form an integral part of the League. Links to these groups can be found here <http://nj-njslom.civicplus.com/308/Affiliate-Organizations>
