

## The Benefit of the BENCOR Special Pay Plan

The Special Pay Plan from BENCOR represents a significant retirement benefit for governmental and school district employees with accumulated vacation, sick, or other leave pay. Through this mandatory plan, all eligible employees with accumulated Special Pay will have the contributions automatically made into the Plan. By making the contributions in this manner, the employee has any income tax deferred on the contributions until they are withdrawn, and they avoid permanently the Social Security and Medicare taxes (7.65%) on those contributions.

The contribution limit to a 401(a) Special Pay Plan for 2021 is \$58,000 and is not offset by voluntary contributions to a 403(b) or 457 plan. Additionally, the contributions to the Plan are 100% vested to the employee and can be withdrawn at any point in time after the contribution to the Plan. Not only does this enable the employee to save the 7.65% in Social Security and Medicare tax immediately, it also provides an opportunity to manage the withdrawal of the funds at a time that can reduce the income tax based on the individual's personal circumstances.

### Special Pay Plan Example
